

Randall County Little League Plans Concession Stand Building

Construction of a concession stand and toilet facilities at the Randall County Little League park was voted Thursday night by the league membership.

In addition, the members re-elected the officers and directors of the league for another term. O. W. Parker is president, A. W. Lair vice president, Bill Davis secretary and J. D. Byrd, treasurer.

Money for the construction of the concession stand is on hand. Parker told the members. He said that after the construction is finished and money set aside for operation of the league this season, a surplus of about \$2000 would be in the treasury.

The membership voted to donate as much as possible of the surplus to the organization of a Babe Ruth League.

The concession stand will be located along the south edge of the Little League park so that it will serve both the Little League and the Babe Ruth League.

Parker said that the Little League had invited the district playoffs this summer, but he had not been notified if the bid had been accepted.

The membership also re-elected

the team managers who finished the season last year. They are Hugh Greiner, Braves, Rex Reeves, Yankees, Velton Sogree, Red Sox, and Jim Boyce, Dodgers.

School Burglar Gets Five Years

The man who burglarized Canyon High School of more than \$1000 on Nov. 2 was sentenced to five years in prison Tuesday afternoon on a plea of guilty.

Thomas Edward Pate entered the plea before Judge E. E. Jordan in 47th District Court. He testified that he committed the burglary alone.

Pate was indicted Tuesday morning by the grand jury, and waived his right to a delay before trial. He also waived his right to a jury trial.

Punishment for burglary is any term between two and 12 years. The five year sentence was given following an examining trial.

The City and the County Are At It Again . . .

No Fire Calls Outside Town

An order that the Canyon Volunteer Fire Department will make no calls outside the city limits will stand at least until the next scheduled meeting of Monday night the Canyon City Commission, Mayor Hosea Foster said Tuesday after he received a letter with a proposition from the Randall County Commissioners Court.

The city had been furnishing county fire protection on a 30-day contract which expired at midnight Monday. The order for no county calls was issued by City Secretary Andy Boggs Tuesday morning upon instructions from the city commis-

sion. The commissioners court held a short special meeting Tuesday afternoon to draft a proposition for a contract. The proposition was delivered to Mayor Foster by Commissioners Bailie McCormick and Glenn Dowlen.

The county's letter said in part: "That in return for the Canyon Fire Department furnishing said fire protection, Randall County will pay its proportionate share of expense to be ascertained in the following manner:

"That the expenses of maintain-

ing the Canyon Fire Department for a fixed length of time will be divided by the number of fires occurring both in the City of Canyon and in Randall County, outside the City Limits of Canyon, and Randall County will pay on a proportionate basis, based on the per cent of fires occurring in Randall

County, outside the City Limits of Canyon. That is, whatever the per cent of fires occurring in Randall County, outside the City Limits of Canyon, will be the per cent of the total expense that Randall County will bear.

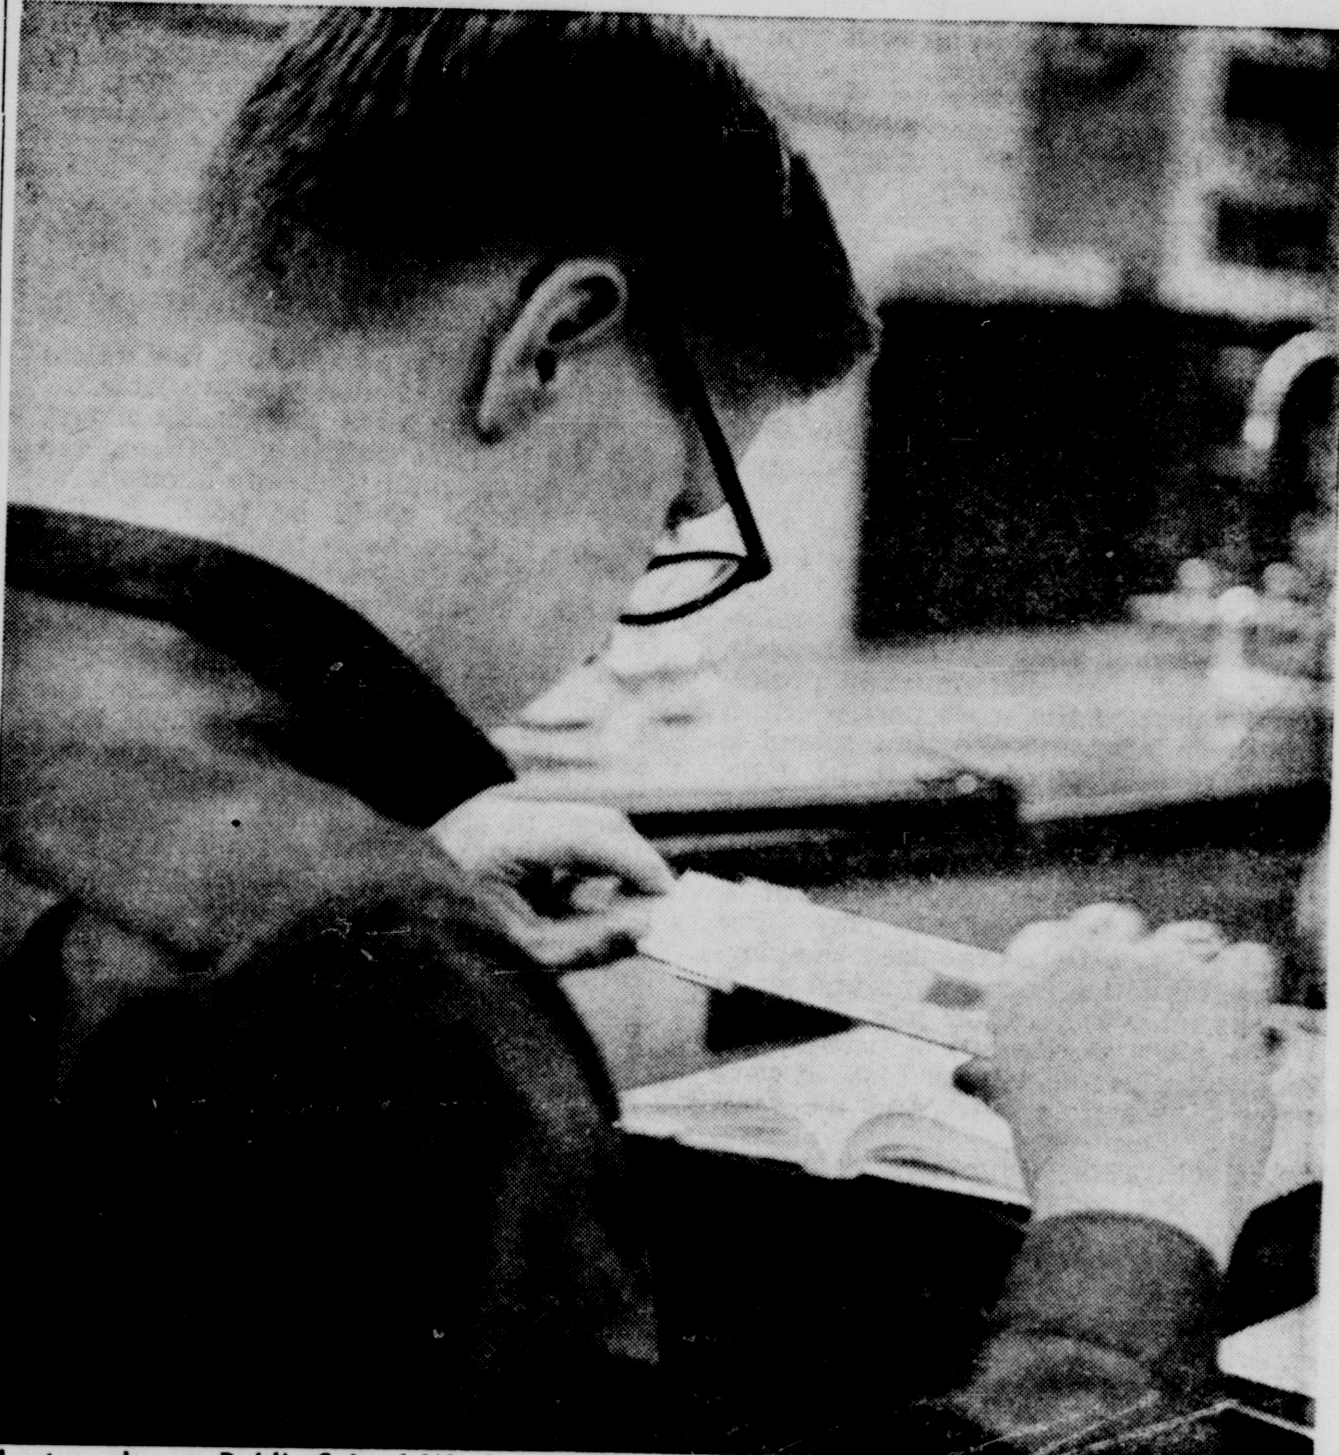

"That the City Commission of

the City of Canyon, and the Commissioners Court of Randall County will agree on what constitutes the expense of maintaining the Canyon Fire Department."

The letter also said that the county would retain ownership of

(Con't. on Back Page, Section 1)

Visit the Schools With Us

Last week was Public School Week, and those who didn't get a chance to visit the schools during the observance can visit with us. This picture of John Robert Wheelock working with a slide rule during a physics class in high school is the first of several scattered throughout the paper depicting work in progress at the schools. None of the pictures were posed, and all show actual working conditions.

Begin Organizing Babe Ruth League

Organization of a Babe Ruth baseball league for boys 13 to 15 years old was completed this week, and a fund raising campaign will be conducted in the near future to build a park and provide equipment.

At the first meeting of interested men Thursday, Dr. C. C. Callarman was elected president of the league. Other officers are Hampton Lisle, vice president, Butch Begert, treasurer, and Bill Cherry, secretary.

In a second meeting Monday night, managers for the four teams proposed for the league were selected, and names were picked for the teams. The managers and their team names are George Ritter, Giants; Borden Price, Cardinals; Burl Brim, Pirates; and Chet Reynolds, White Sox.

John Callarman was appointed official scorer of the league, and C. R. McPherson was named head umpire. The membership officially adopted the name "Randall County Babe Ruth League" for the organization.

Boundaries were set to include all of Randall County except that portion which is inside the city limits of Amarillo. Any 13, 14 or 15-year-old boy inside the bounda-

ries will be eligible to play in the league.

A finance committee of Bud Parker, W. J. Wooten, J. D. Byrd, Jack Taylor and Butch Begert was appointed to conduct a campaign for funds. An estimate of \$6800 was made as the goal for setting up the league.

The cost estimate includes \$3500 for lights, \$1500 for fence, dugouts and backstop, and \$1800 for grass, uniforms and playing equipment.

The membership also decided that a player auction similar to that used by the Randall County Little League be adopted, and Bill Sternenberg and Bob Bellah were appointed player agents.

A survey of possible players is being conducted in the Canyon and Umbarger schools, but it is not necessary that players attend school at either of the places. Prospective players may contact either of the players agents to register.

Complete details of registration procedure, spring training and workout dates, and the playing schedule will be decided later.

Each player is required to submit a copy of his birth record before playing in the league. Na-

tional rules state that no player can be included on league rolls without this certificate.

A committee composed of Rex Reeves, Lawrence Brotherton and Wooten has been appointed to collect and keep the birth certificates of the players.

Under national rules, new leagues are eligible for playoff tournaments leading to a World Series if an application for a charter has been sent to national headquarters by May 1. The membership of the Randall County League completed an application form for a charter Monday night.

In addition to the charter from the national organization, a charter for incorporation as a non-profit organization under the laws of the state will be filed by A. W. Lair.

The Babe Ruth ball park will be constructed just south of the Little League park on a site loaned by the school board. Dirt work in leveling the area was started by Ivan Dement Construction Company as a donation. The work will be completed when weather permits.

Babe Ruth ball is played on a full-sized diamond and professional

baseball rules are used for the most part, with certain changes in the use of players because of their age.

Dr. Callarman said that in addition to volunteer help in raising money and building the park, one of the biggest needs is for coaches to help the team managers and umpires.

He said McPherson will conduct a school for umpires in May, and that any man interested in becoming an umpire for the league should contact McPherson at the school of business at West Texas State. McPherson was coach for the WT baseball team last year.

The next meeting of the membership will be at 7:30 p. m. Monday in the West Texas State fieldhouse. Anyone interested in the program is invited to attend.

Month's Moisture Totals 1.73 Inches

Rain, snow, sleet, thunder, lightning and even a little blowing dust, mixed has given Canyon 1.73 inches of moisture this month. And more snow came last night and this morning to swell the total.

Measurements show .14 of an inch on March 4, 1.01 inches on the 6th, and .58 of an inch on the 8th.

Predict 23-Cent Drop for Wheat Support From Last Year's \$2.01

This year's wheat crop will probably be supported at \$1.78 per bushel rather than the \$2.01 rate in effect last year.

Probable price supports for agricultural commodities in Randall County for 1958 were computed this week by Doyle Thomas, county ASC office manager.

Thomas said that his computations were based on a comparison of the national and county rates for 1957 and the national rates for 1958. He emphasized that county rates have not been set and that Congress is in session and there is always the possibility of changes.

"In all probability the rates will vary a little from these we have come out with, however they should be close," Thomas said. "We do feel that the support prices given are a minimum."

Thomas said that it appears that about 125,000 of the 138,000 acres of wheat allotted in the county were planted. Some 10,000 acres of the wheat allotment are in the Acreage Reserve.

As things stand now, the wheat crop will be supported at \$1.78 per bushel as the national average. Rates for different areas will vary, but if this is the final

rate, the local loan rate should be the same as the national average, Thomas said.

The figure is based on 75 per cent of parity. The \$1.78 rate should net the farmer \$1.76 per bushel stored on the farm. If stored in a public warehouse, the cost would be about 13 or 14 cents per bushel and the loan net would be \$1.62 or \$1.63 per bushel.

Feed grains will be supported at 70 per cent of parity, and should result in the same rates for 1958 as in 1957. Thomas compared the announcement received in 1957 at this time of year with the announcement received last week, and made the following comparisons.

The grain sorghum rate in 1957 for Randall County was \$1.76 per hundred. The national rate for 1958 is \$1.83, the same as last year. As a result, the county loan rate should be \$1.76 per hundred this year, Thomas said.

The national barley rate for 1958 is 93 cents per bushel, comparing with a 1957 rate of 94 cents. The county rate should be 95 cents per bushel this year, because the rate last year was 96 cents.

The national oat rate is 61 cents per bushel, or 1 cent more than the 1957 rate. The county rate last year was 69 cents, so the 1958 rate should be 70 cents per bushel, Thomas figured.

The 1958 national rye rate is \$1.10 per bushel, while the rate announced at this time last year was \$1.15. The 1957 county rate was \$1.15 per bushel, and should be \$1.10 for 1958.

Tea Opens School Art Exhibition

A tea honoring parents of students in art classes in Canyon Junior and Senior High Schools will open a two-week exhibition of student work Sunday in the Panhandle-Plains Historical Museum.

The tea will be from 3 to 5 p. m. in the museum. The work will be on exhibit from Sunday through March 31. On display will be paintings and drawings in tempera, water color, charcoal and various other media.

In addition, the display will include creations in clay and other three-dimensional materials.

"It is hoped that all parents and friends of the art students and any and all others interested in creative art in our school will see these works and encourage the students in their effort to express ideas visually," said Claudia Neely, art teacher in the school.

"In this day of exploration in science—matter and space, it is only natural that the visual arts be affected," she said. "There will be found expressionist and abstract tendencies as well as the lyric, naturalistic and representational."

"Each student learns and explores from the background of his own experiences, knowledge and emotions. We hope that every one who sees the exhibition will view it from the standpoint of a child's expression and not from the viewpoint of adult standards of perfection."

City Commission Picks Mercury Vapor Lights for New Fourth Avenue

Mercury vapor street lights will be installed around the square and east on Fourth Avenue in connection with the widening program underway, the city commission decided Monday night.

The commission received two proposals for lighting from Truett Hull, Southwestern Public Service manager for Canyon. The proposals were for either mercury vapor lights or incandescent lights as are installed on Highway 87.

Hull said that the mercury vapor light will give about three times the illumination for approximately the same cost. The new installation will include the lights around the square on the inside and outside and about three poles per block east from the square.

The commission decided that no lights would be installed adjacent to the acreage near the east city limits owned by West Texas State, and the lights would end at the last street in Pioneer Estates rather than extending to the city limits.

The three candidates for the city commission, Charles Donnell, John P. Taylor and Dr. Lowell Harrison, met with the

commission and participated in the decision.

In other business, the commission and candidates interviewed four applicants for city secretary, but no decision was reached. The group will meet again next Monday to consider next year's budget and will interview any other applicants at that time.

The commission also decided to purchase a new gasoline pump for the city barn to replace an old

hand-style pump that is needing repair. City Secretary Andy Boggs said that a new pump with a metering device would allow better control of the use of gasoline.

Bids for two pickups to be used by the street and water department were received from Imperial Chevrolet, Truitt-Townsend and Stevenson Pontiac.

Contracts for the pickups will not be awarded until the bids can be evaluated.

County Receives Contracts for Remainder of E-Way Purchasing

Contracts for state participation in right of way purchase on the Amarillo to Canyon Expressway between Bell Avenue and the city limits of Amarillo were presented to the Randall County Commissioners Court Monday.

Chili Smith, district highway engineer, Virgil McGee and W. V. York met with the court and presented the two contracts. One

contract will cover the area from Bell to 45th Street, and the second will cover from 45th Street to the city limits.

Smith said the contracts were in two parts because it was planned to let construction contracts in two parts.

The commissioners court indicated it would ask the state to con-

(Con't. on Back Page Section 1)

Lions Sell Brooms

Members of the Canyon Lions Club will be by Monday night to sell brooms, mops, pot holders and other household aids for the benefit of the Texas Lighthouse for the Blind. Of top quality, the housewares will be priced competitively, according to Lion Boss Rex Reeves.

Svetlova Dances Final Concert of Season

Marina Svetlova, internationally known Prima Ballerina who loves aviation, will appear at the WT Administration Building auditorium this Saturday at 8 p. m. for the last concert of the Canyon Community Concert Association series.

An aviation enthusiast, Miss Svetlova has been a licensed pilot since the age of 16, and has over 300 solo hours to her credit. This is an ideal hobby for this talented dancer for she performs around the world, thrilling audiences with her talent in such countries as Israel, Greece, Holland, Switzerland and Italy.

Miss Svetlova is also the only dancer to have won the International Championship of the Dance for three consecutive years, a feat never equaled or surpassed. She has guest-starred with such well known musical companies as Britain's Cosmopolitan Ballet, and the Royal Swedish Ballet in Stockholm where she starred in "Swan Lake."

Adding to her versatility, Svetlova shattered a tradition of ten years' standing when she was appointed Prima Ballerina of the Metropolitan Opera Association, filling a position vacant for a decade. She danced in many of the most popular successes of the Metropolitan, appearing in roles often omitted from performance for lack of a dancer talented enough to do the difficult dancing.

Appearing with this great star will be three other talented artists, well known for their skill and great poise. Gilbert Canova, a 26 year old male dancer, was signed to partner Miss Svetlova after attracting audiences all over Europe.

Lutys de Luz, who studied with the greatest dance names of Spain, joined the group after a successful Paris debut and fame with the production of "Don Quixote."

Theodor Haig, Miss Svetlova's pianist, has played for such great names as Wendell Willkie and Irving Berlin. He is known as "Mr. Opera" for his broadcasts of musical programs in New York, and has assisted Miss Svetlova on all her world tours since 1953.

It is no wonder that this aviation loving dancer is called "America's favorite dance attraction," for her vivacious and thrilling personality have charmed audiences all over the world. Her fine technique, coupled with the finest traditions of the classic ballet, will be a rousing close for Canyon's concert season.

Learn About Your City

For the next few weeks, the Canyon Chamber of Commerce will be telling us about Canyon—a subject that most of us think we know all about. A close study of the information will prove that we actually don't know so much, after all.

We'll see such things as the amazing fact that 50 new families have moved to Canyon since Jan. 1. At least 50 new contracts for service were signed at the Southwestern Public Service Company. It seldom seems that any growth is taking place here, but such figures belie the feeling.

The Chamber of Commerce has a two-pronged reason for their program of education about Canyon. Firstly, the

chamber is trying to sell you on the idea that Canyon is a good place in which to live and do business. And secondly, the chamber is trying to tell us that if we do not plan for our future, we're going to be in a mess all of a sudden one of these days.

One of the best ways to plan civic growth is through the chamber. It's practically axiomatic that concerted group action gets more done than does individual effort. The chamber has a history and a future of decisive work toward a goal of better living for all of us.

But to do its work effectively the chamber needs two things—people and money. And that means members.

An unlimited budget without the minds and hands of Canyon citizens would not be nearly so effective for the chamber as would a smaller budget aided by willing workers.

But a chamber's hands are tied unless a fair amount of money is available.

Through the years, the annual budget for the Canyon Chamber of Commerce has been so small that only administrative expenses could be paid. If the chamber undertook a project, it had to turn back to the membership or to merchants for more cash.

Such a method of operation leaves a bad taste in the mouths of many. If a merchant member pays dues to the chamber, but the chamber comes back several times a year for more money, the member feels there is no use paying the dues. So he quits, figuring he'll pay only the requests for various projects.

When he dies, the chamber loses twice—it loses the dues that are used to pay administrative costs mostly, but more important, it loses the mind and work of a member—a loss that cannot be sustained many times.

Better by far would be for every merchant, every professional man and every civic-minded citizen to belong to the chamber of commerce. Then our city would have the benefit of an active, organized group working for betterment. The chamber would have more money for projects and the chamber would have enough workers to get things done.

Don't be fooled. A city cannot grow through money contributions alone. It needs the minds and legs and hands of all its citizens. And the chamber of commerce is a good channel for work to progress.

In a few weeks when the membership committee of the chamber contacts you, be ready and willing to sign up. There's no need to wait for them to contact you—you can contact the chamber yourself. Join up now.

Babe Ruth's Ready

Last week saw the formal beginning of a program of summer baseball for the beginning teenagers. A Babe Ruth League began organizing with the idea of having everything ready by summer for play to begin.

The Babe Ruth program takes over where the Little League leaves off and carries on from 13 year olds to the 15 year olds. It is more nearly like professional baseball than is Little League, using a full-sized diamond and professional rules for the most part.

Between now and the time school is out there is a lot of work to be done. Money must be raised, volunteer workers must build a park, seed the ground and have the physical facilities ready. At the same time, other volunteers will be busy getting boys ready to play. The teams will have to be organized, the players must practice, and umpires and scorekeepers must learn their jobs.

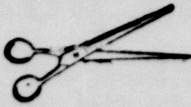

Like most worthwhile activities, the Babe Ruth League will need lots of work before it can start out. And the work must be volunteered.

Excluding the volunteers needed to handle the actual construction, the greatest need in the next couple of months is for volunteer team managers and for umpires. Those could best be men who have had some actual playing experience in baseball.

Dr. C. C. Callarman, head of the business department at West Texas and a baseball fan from way back, was elected president of the league. He's ready and waiting for volunteers for every phase of the league, but is looking especially for managers and umpires. If you've had experience, or if you have the desire to help along that line, contact him as soon as possible. You'll be most welcome, and you'll be put to work immediately.

What Our Neighbors Say . . .

Scissor Snippings

Douglas Meador in the Matador Tribune: Procrastination has always ridden behind my saddle with hands ever willing to draw back on the reins. Time has taught me a system, however, that is partially efficient. While avoiding a direct attack on the work that should receive my immediate attention, I have been able to accomplish many lesser things. Eventually the important work becomes lesser and receives attention while new work of importance is avoided.

From the Wheeler Times: If any of these shrewd Wheeler businessmen or women try to sell you a 50 cent chance on a "Washer and Dryer," don't bite. I did and guess what the "Washer and Dryer" turned out to be? A common lock washer and a piece of tissue paper . . . It takes us daddum Okies a while to catch on but eventually we learn better.

Harold Hudson in the Ochiltree County Herald: The Hudson family is definitely out of the social swim. Everyone we know has signed up for ballroom dancing, except us. We hate to go to a dance with these people any more. The men are learning to balance on the balls of their feet, how to do the correct steps, gliding around like Arthur Murray himself. We still dance catch-as-catch-can, and we're going to keep on doing this way.

We would have signed up for these lessons, just to be like everyone else, were it not for the fact that there will be a new addition to the family in May and mama doesn't feel much like tripping the light fantastic right now. This is a strange coincidence—everyone was learning how to square dance at about the time we were expecting Jimmy. A couple of years

later when the second square dancing wave set in, we were expecting Johnny. It's quite a puzzle as to how the stork got mixed up in this dancing business, but you can see that the old bird is keeping us from being accomplished dancers.

Jimmie Giffentine in the Hereford Brand: When Mrs. A. O. Thompson arrived at the C-C merchant's meeting at the hotel the other morning, she was no little confused about a lot of things. As she stepped out of her dress shop a couple of well-dressed ladies were having an argument over the quality and ability of certain wrestlers portrayed on a placard in her store window. Nearby, two men were none too quietly discussing the merits and demerits of the new "sack" styles as recommended for women.

When the men start talking about styles and the women start arguing about wrestling, declared Mrs. Thompson, everybody's all mixed up.

Paul Crume in the Dallas Morning News: Specialist: A Negro man was brought down from the city jail into corporation court Wednesday on a charge of theft.

He was tried, convicted and sentenced. Though he had already served out his city sentence while awaiting trial, he was ordered held for county officers who wanted him, also for theft.

While taking the man back to jail, Bailiff Leroy Trice noticed that all of his pockets were bulging. Trice gave the prisoner a quick frisk.

The man had been in the city jail 18 days. Stuffed in his shoes, his socks and all his pockets were 18 of the city jail's new table-spoons.

Ernest Joiner in the Ralls Banner: Pardon the absence of any alarm over statistics showing that 5 million are unemployed, for we note press reports that about the same number are out on strike against the highest wages in the history of their crafts. One way to solve the unemployment problem is to put idle workers in jobs vacated by strikers. Then the labor situation could be more accurately described. There would be 5 million persons in the United States who walked off their jobs and therefore do not choose to work.

I GIVE YOU
TEXAS
By
BOYCE HOUSE

William G. McAdoo was a United States Senator from California. Before that, he was a member of President Woodrow Wilson's Cabinet and during the First World War, he had charge of operating all the railroads in the nation. He also led in the early balloting for presidential nominee at a Democratic national convention.

But to a reporter, he was just a news story—the subject of an interview.

He had just arrived in Fort Worth when I phoned from the hotel lobby and he invited me up.

After greeting me cordially, he said, "The pilot and I have been in a small plane for hours; the air was rough and I've had nothing to eat except a cold sandwich. I'm very tired. Couldn't you see me after while?"

And he stretched his long frame on a couch.

I felt sorry for him and a little ashamed of myself but I said, "Mr. McAdoo, there's an edition coming out and it won't wait, so neither can I."

And so instead of tossing me out, he smiled and said, "Then fire away" and he answered my questions.

A governor and the mayor of a capital city were enemies. One night the mayor heard that his foe, drinking heavily, had gone to a dive, so the police were ordered to raid the establishment and the governor was among those arrested.

News of the scandal spread over the state and the governor, who had been re-nominated, gave up the nomination.

Several years went by and the former governor announced his complete reformation. He renounced liquor and denounced it from the platform.

From his own bitter experience, he spoke:

"Liquor, I hate it for what it has done to me and those that I love."

"See the drunken man reel into his home and his wife and little children cowering before him like birds before the hunter's gun."

He shed tears and so did his audiences. He became the most eloquent advocate of prohibition in the nation.

What a novel this would make!

By VERN SANFORD

Fish hatcheries of Texas now are ready to provide as many fish as will be needed to stock the new lakes that have become filled with fall and winter rains.

There is a mistaken idea on the part of many people about these hatcheries. Because our hatcheries have done a great deal of stocking of some of our major lakes and streams in the past, there is a tendency on the part of many persons to think that this work is a continuing project.

This is not so. Today our fish-hatchery system works differently. There is a definite need for fish hatcheries in Texas. But except in unusual cases they do very little stocking of big lakes.

They have discovered that poor catches are, in many cases, the result of over-population of a lake. Restocking just adds to the seriousness of the situation.

On the other hand, Texas with its myriads of small lakes, created on farms and ranches and across dry creek beds, boasts numerous

places for heavy hatchery production. Each time one of these small lakes is built, and fish are stocked, it provides fishing for a few more people.

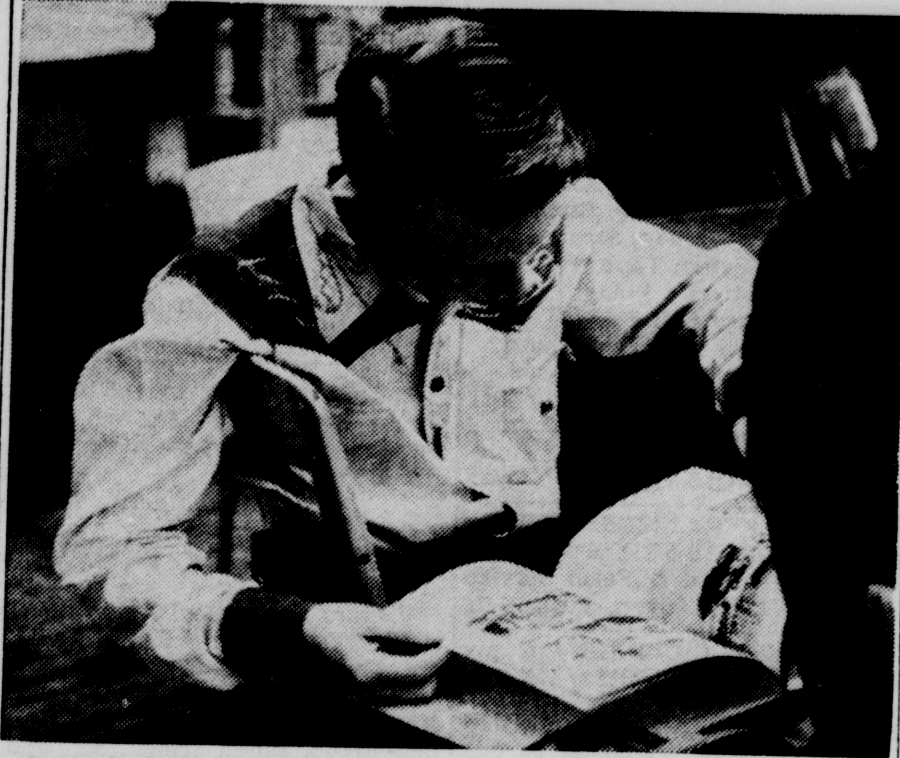

These are private lakes, of course, but they furnish very fine fishing for those who are lucky enough to get permits to fish in them. In turn that takes the pressure off of public waters to a great degree.

Texas may be shy on public lands for hunting, but it certainly isn't shy on public waters for fishing. Except for far West Texas and the Panhandle there are fine lakes within a short drive for everyone. And Texans really are using them, too. Ditto for the Gulf Coast.

Launching Ramps Are Needed

One of Texas' greatest needs today, insofar as outdoorsmen are concerned, is for more and better launching ramps so as to provide greater access to these fine lakes and the Gulf Coast waters. With so many more boats and a rapidly

Study Hall Work

A study hall in junior and senior high school can be used for many things. A pupil can study, dream, read the paper, browse through magazines or read books from the library, as this youngster is doing.

increasing number of fishermen, it is becoming more and more difficult to find places to launch boats, without having to spend hours awaiting your turn.

Building new launching ramps, and improving the old ones, is a job that might well be undertaken by local groups, or the city, or the county. It also is possible that the State Highway Department might be able to build a few access spots where highways cross some of our streams.

Certainly all of us agree that it is important that state gasoline tax funds be used to build roads for the use of those who pay the tax. It must be remembered, however, that a trailer and a boat drain much gasoline from the car. Then once the boat is in the water it becomes a motor fuel consumer too.

While there is a tax exemption on non-highway use of motor fuel, it is seldom if ever claimed by the small boat owner. For that reason our road builders might look ahead just a little and assist in providing access.

A Sonic Fishing Idea

It is interesting to note how some of the primitive methods that we use to catch fish eventually are improved upon — then placed on the counter to sell. For instance, we have, for a long time, been rigging up jigs on foot-long leaders to follow after deep running plugs. They were good for both white and black bass.

Now comes Heddon with an improvement on the idea. It is the firetail sonic. It makes a noise the fish can hear, and has a tail section that glows. This is supposed to irritate the bass and if he hits a little short, he still gets hooked.

This firetail won't be a particular menace to the fish population — especially in Texas, because we have so many fish. By the time it gets to working good the fish will get smart and then someone else will come up with something new to lure the fish and fishermen.

Sand Bass Are Active

Sand Bass now are running in all their glory. We've seen some tremendous catches made within the last couple of weeks. They are especially active where fresh water creeks are flowing into lakes and in the tailraces just below some of the big dams.

They are hitting on everything. Some like minnows. Others take spoons or plugs.

There has been some fine sand bass fishing in the Rio Grande. Sandies from Falcon Lake have gone up the river as far north as Laredo, according to reports.

Biologists also are stocking Lake Houston this Spring, with some sand bass brood stock. One good stocking in Lake Houston and in a couple of years it should provide fabulous fishing.

Incidentally, black bass and crappie fishing is going begging in this fine lake, according to reports. It can stand much heavier fishing pressure than it is getting. This is one of the most beautiful lakes in Texas.

How About Your Vacation?

Right now a lot of people are beginning to think about their summer vacations. The kids will be out of school almost before we know it. How about vacationing in Texas? There are so many interesting places to visit and so many beautiful sights to see that it will be easy to pick out a place.

You can take a wonderful Texas vacation at little cost, and it can be one for every member of the family.

An excellent map of Texas is provided by the State Highway Department. Your local highway

engineer can give you one, or you can write the Austin office. Also, all the major oil companies have excellent maps. Most of them also provide a special service from the home office, giving you interesting information on the various localities. Filling stations can, of course, furnish maps. Some have descriptive folders, especially of lake areas. Another good contact is your Chamber of Commerce, where you can obtain folders about many Texas areas.

Quail Hunters Please Note

If you want some good quail hunting this fall right now is the time to get ready for it. If you have acreage that will provide cover and feed for the birds contact your local game warden, or write to the Game & Fish Commission in Austin. You can make arrangements with them to get these birds for restocking at a very reasonable price.

Some hunters also have found it advantageous to buy a few quail and place them on land to assure good fall hunting. Might try it.

Only persons who have been dead for ten years can qualify for election to the Hall of Fame.

SOIL CONSERVATION DISTRICT NEWS

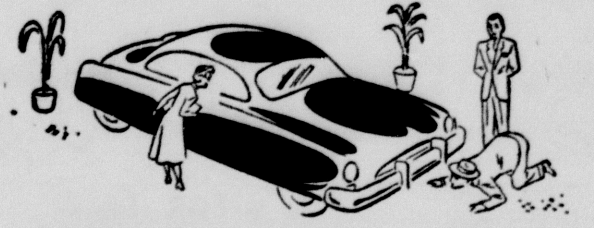

The Kress Nursery located at Plainview is offering to co-operators of the Randall-Potter Soil Conservation District potted Arizona Cypress trees, 5 to 8 inches in height, for 25 cents per tree. The minimum order is 50 and the maximum order is 400 trees.

These trees are to be used for farmstead windbreak plantings.

To obtain these trees, contact the technicians of the Soil Conservation Service in the Canyon Court-house. You can buy these trees without ordering through the Soil Conservation District, but they will cost you more than 25 cents per tree.

These trees are to be obtained before April 1. The trees will be picked up at the Kress Nursery, 3007 West Fifth Street, Plainview. The nursery is located one mile from the Plainview Courthouse on the Olton highway.

There will be a meeting to discuss agricultural programs at the Jowell School Thursday at 7:30 p. m. All interested persons are invited to attend. The Soil Conservation District supervisors will conduct the meeting and introduce speakers from the agricultural agencies serving farmers and ranchers in the Randall-Potter Soil Conservation District.

Kress, Tex., Man Reports—

"2,000-lb.-Per-Acre Increase From Irrigated Maize."

Melvin F. Walter, who farms 1,100 acres near Kress, Tex., says: "I put down 100 pounds of Phillips 66 Agricultural Ammonia on irrigated maize and got a 2,000-pound increase in grain per acre. I also made 50 bushels of wheat per acre using 100 pounds of Phillips 66 ammonia."

Other Southwestern farmers have discovered that the 82% nitrogen in top quality Phillips 66 Agricultural Ammonia helps them get more profit per acre through higher yields. They get more cotton that classes higher at the gin... yields of grain sorghum and ensilage are increased... more marketable vegetables are harvested... and profits on wheat are increased through better forage and higher yields of grain.

Phillips 66 Agricultural Ammonia contains 82% nitrogen and gives you more nitrogen per dollar than any other form of commercial fertilizer available.

Order Your Supply Of Phillips 66 Agricultural Ammonia Today!

The Canyon Chamber of Commerce

1. WHAT IS THE CANYON CHAMBER OF COMMERCE?

It is a voluntary organization of Canyon citizens who are investing their time and money in a community development program - trying to improve the agriculture, industrial, and civic betterment of the city of Canyon and Randall County.

2. WHAT ARE THE PURPOSES OF THE CANYON CHAMBER OF COMMERCE?

To sponsor and encourage any activity that will lead toward the creation of more dollars for more people and improve the economic welfare of Canyon and Randall County. To provide a clearing house for community ideas, activities, and information; to translate community improvement ideas into action, and to always be of the most service to the greatest number of people in Canyon and Randall County.

3. WHO CAN JOIN THE CANYON CHAMBER OF COMMERCE?

Any responsible citizen of Randall County who is interested in the improvement of Canyon and Randall County, and who is willing to make a personal and financial investment in the organization. Cooperation by the members will get the job done.

4. IS THE CHAMBER OF COMMERCE TAX SUPPORTED?

No. The Canyon Chamber of Commerce receives its income from membership dues only.

5. HOW MUCH DOES IT COST TO BE A MEMBER OF THE CANYON CHAMBER OF COMMERCE?

Minimum dues are \$12.00 per year. The amount a member pays, over the minimum, is left entirely up to him. Most members pay more than the minimum amount, with many paying several times the minimum, depending upon their ability to pay and their interest in the progress of Canyon and Randall County.

6. WHAT IS THE MONEY USED FOR?

To maintain an office and to finance the various committee activities.

NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS
OF THE 18TH CONGRESSIONAL DISTRICT

Foreign Aid and Reciprocal Trade
Both foreign aid and reciprocal trade received a big push last week in the nation's capital. The President and most all of the members of the present Administration began to suspect several weeks ago that all was not well for foreign aid and reciprocal trade on Capitol Hill.

A quick poll revealed that the extension of the Reciprocal Trade Act, which expires on June 30 this year, had a slim chance of slipping by this Congress. The poll also revealed that the support for foreign aid had dwindled considerably and that the Congress was in no mood to spend almost \$4 billion more of the taxpayers' money on this controversial program.

This not only alarmed the President, but it caused some deeply furrowed brows among the big industrialists, manufacturers and business tycoons. The President was concerned because he has been thoroughly sold on the idea that the extension of the Reciprocal Trade Act and a providing of \$3.9 billion to further carry on the foreign aid program are essential to the welfare of this country.

The industrialists, the manufacturers and the business tycoons were deeply concerned because if these two measures don't pass, they stand to lose a lot of money unless they can rearrange their business activities and start selling their goods without the American taxpayer having to foot a large part of the bill.

Whether you like or dislike foreign aid, the cold, bare truth is that the foreign aid program is now, and always has been, a giant subsidy to big business. This is not to say that there has not been a great deal of good accomplished through this program.

However, the fact is the American taxpayer has had to pay the bill and has received very little credit for what he has done. In debate of this subject on the House Floor, it has been said many times that only \$1 out of every \$4 in this program reaches foreign shores. The other \$3 is paid to business people, manufacturers and industrialists in this country for goods, wares and merchandise which is shipped to foreign countries as part of the aid program.

This means that the American taxpayer has been required to buy goods, wares and merchandise from people in this country to give to people in foreign countries—in most instances also paying the freight and delivering such commodities to the foreign country. It is argued that this aid program is necessary for us to support our own economy. When I was a boy it was called, "holding yourself up by your own boot straps."

The Reciprocal Trade Act extension was originally intended to encourage two-way trade between this country and other countries. In many particulars, this purpose has been carried out. The difficulty seems to lie in the fact that many industries have been per-

Reading for Pleasure

One of the biggest projects in the elementary school grades is teaching children to read, to appreciate reading and to stimulate interest in reading. In Mrs. Brasher's fourth-grade room, for instance, the pupils read textbooks, library books, and each day, a part of a story book is read to them—giving the idea that interesting stories can come from books as well as from TV and movies.

mitted to suffer measurably because of disagreement between the State Department and certain segments of the Department of Commerce.

The President has authority under the Reciprocal Trade Act to step in and prevent an industry from being seriously injured by reason of unfair foreign competition. However, the State Department has been accused of interfering many times and actually sacrificing the best interests of some of our industries and businesses in order to avoid any disagreements between our government and the foreign government involved.

Everyone realizes the need for world trade, and certainly it is to our interests to participate to our fullest ability to developing trade relations between all countries. However, our responsibility in this regard does not require our government to permit the destruction of segments of our economy which have been built up under our free enterprise system—destruction because of unfair competition in foreign countries where the standard of living is much lower and where the labor and material costs are far below those in this country. If we as a country are to be able to help others, we must see that our own economy remains strong.

You will be subjected to a tremendous campaign to sell you on both of these programs. You will be asked to write your Congressman and tell him to vote

for both of them. I hope you will study all of the information you receive very carefully and weigh it with great care. Then, write me your honest and sincere views on the subject matter and tell me exactly what you think. It is your money and your country, and you have the right to be heard.

Another Texas Story

I recently attended a banquet with a gentleman from the Province of Saskatchewan, Canada. He was one of the main speakers on the program. We had visited for some time prior to the banquet. When he arose to speak he told the audience that he was from a

Tennessee Pastor Will Speak Here

Mrs. E. U. Robinson, pastor of the Fountain Head Methodist Church at Gallatin, Tenn., will be a featured speaker at the meeting of the Wesleyan Service Guilds of the Northwest Texas Conference here this weekend.

First woman in her conference to be ordained as a minister, Mrs. Robinson will speak Saturday at 7:15 p. m. and Sunday at 10:45 a. m. at the First Methodist Church. Her topic Sunday morning will be "Disciples to Such a Lord."

"When I preach, my feelings are of great joy at being able to have the privilege of sharing with others what Christ means to me and can mean to others," Mrs. Robinson said.

Mrs. Robinson has been a delegate to the second assembly of the World Council of Churches in Evanston, Ill., the World Methodist Conference in Oxford, England, and to the constitutional convention of the National Council of Churches in Cleveland, Ohio. In February, 1957, Mrs. Robinson ended eight years as president of the Southeastern Jurisdiction Woman's Society.

"My ministry doesn't interfere with my duties as a housewife," Mrs. Robinson has said. "My home isn't neglected. I've never bought a cake or a pie or a mix for example. I make my own desserts and

place in Canada that was very similar to my native state, Texas.

He went on to describe the similarities of both sections with relation to natural resources, crops, industry, size, etc. "In fact," he concluded, "about the only difference between Saskatchewan and Texas is the fact that Saskatchewan is more friendly toward the United States."

breads."

Her husband, Rev. E. U. Robinson, is district superintendent. The Robinsons have one son, who is serving as a pastor in Birmingham, Ala.

Because pigs, especially white ones, can get sunburned, agricultural authorities recommend the use of sunburn lotion on them.

FIRST WORDS

Ardent dog fanciers, a young couple had always had their home overrun with canines. When a baby arrived everybody wondered how the infant would get along with all the four-footed pets.

A friend inquired, "Does the baby talk yet?" "Not yet," the mother said, "but he's learning how to bark."

Prescription Pharmacists

Our Own Acts Affect
Our Good Health . . .

. . . and common sense living is an excellent guide to follow. The functions of medicine and surgery are most often used to help nature overcome the results of our own abuses and neglect.

By normal care, by regular living, and with the aid of frequent examination by your Doctor, you can maintain better health. An important part of this care is the use of highest quality drugs and medicines, such as those of Parke, Davis & Company—which are regularly stocked at this pharmacy.

What will happen to Texas without a sure flow of oil money to grease the wheels of government and business?

March oil allowable was set at 2,517,249 barrels a day (a drop of 513,814 barrels a day from February) with only nine producing days. Railroad Commission said the cutback to lowest level since pre-World War II days was necessitated by excess stocks.

Over - supply developed this way, according to officials; Texas production was showed to record highs a year ago to supply Europe while the Suez Canal was closed. Then Suez re-opened, Middle East oil flowed to Europe again and Texas was left holding unwanted surplus. Further aggravating the situation was the gush of foreign oil into the U. S. taking part of the market from Texas production.

Digging into causes and effects is Governor Price Daniel's Oil Imports Study Commission. At first-round hearings in Austin these views were presented:

BY GOV. DANIEL — Texas is facing its most serious economic threat in 25 years. "Mandatory federal controls" are apparently the only way to stop excessive im-

porting.
BY STATE COMPTROLLER ROBERT S. CALVERT — Continuation of the present oil production pattern for another 90 days would put the state \$20,000,000 further in the red by the end of the current fiscal period. This would mean a \$32,000,000 shortage rather than the \$12,000,000 deficit estimated earlier.

BY MAURICE ACERS, TEXAS EMPLOYMENT COMMISSION — Employment in the Texas oil industry has declined 8,000 since last July. A drop of five per cent in oil employment takes \$50,000,000 in wages from the Texas economy.

BY A. T. MULLINS, GENERAL LAND OFFICE — One company has said it will stop seeking oil from state-owned lands, and others have said they will, unless the state reduces lease prices.

BY J. WARREN HITT, TEXAS EDUCATION AGENCY — Approximately 31.3 per cent of state school money comes from the oil and gas industry.

BY MARSHALL FORMBY, TEXAS HIGHWAY COMMISSION CHAIRMAN — Reduced oil production would eventually cut back construction of highways.

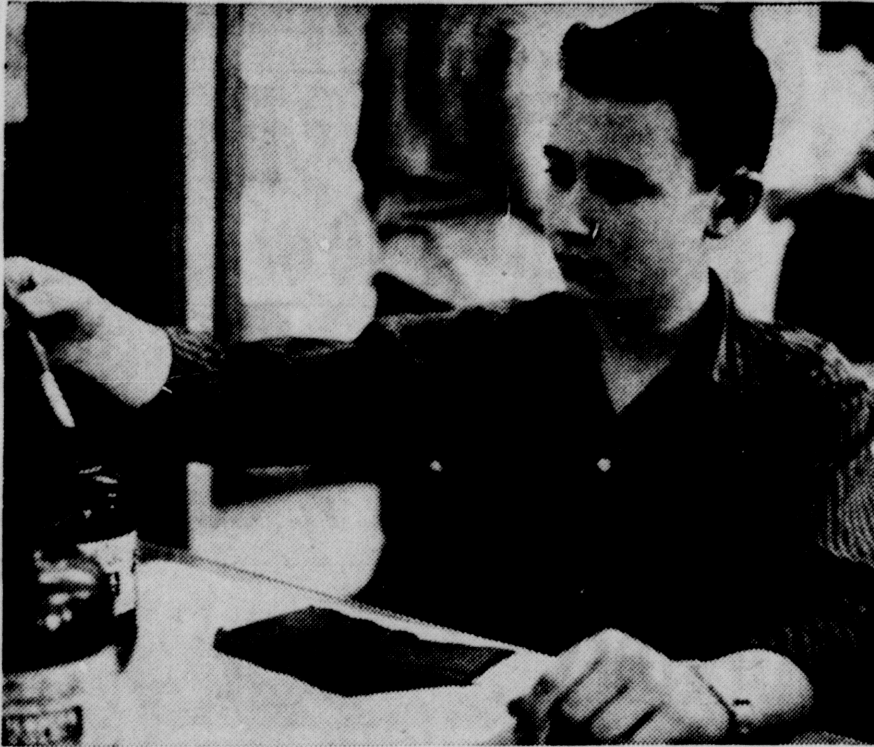

BY JOHN H. WINTERS, COMMISSIONER OF PUBLIC WELFARE — Loss of oil revenue could reduce payments to the aged, the blind and dependent children.

BY REP. MAX SMITH, HOUSE APPROPRIATIONS CHAIRMAN — Next Legislature faces the prospect of spending money it doesn't have or finding new sources of taxation.

DR. PHILIP E. COLDWELL, DALLAS FEDERAL RESERVE BANK — Imports are only partly to blame for Texas oil troubles. Problem of over-supply is worldwide and likely will continue for some time.

French Robertson of Abilene is chairman of the Study Commission. Governor Daniel called hearings. Next meeting is to be March 18

Art's Fun

Throughout their school careers, pupils are exposed to the arts and crafts so that they may learn that life is made up of more than day-to-day grubbing for a living. The exposure is through both actual practice, as this junior high pupil is doing, and through appreciation.

held to date "very successful." in Abilene.

Meantime, the governor has wired governors of 20 other states asking them to join in the effort to get federal government action limiting imports.

Search for New Industry
Long-dormant Texas Industrial Commission has new members and a new job.

Governor Daniel named E. B. Germany of Dallas chairman and gave the commission the task of enticing new industries to Texas to help relieve unemployment.

Originally designed to study labor-management troubles, the commission had been inactive for some years. Its new industry-attracting work is to be financed by private contributions and conducted cooperatively with chambers of commerce and other local groups.

Members are Houston Harte, San Angelo Standard-Times publisher; A. G. McNeese Jr., banker and lawyer, Houston; George T. Hinson, former state representative, Mineola; Chester C. Wine, power company employee, Laredo.

New Receiver
James M. Williamson succeeds J. D. Wheeler in the often-spotlighted job as liquidator for the State Board of Insurance. Williamson is a former district judge in Laredo and prior to his appointment was attorney for several Fort Worth insurance companies.

State liquidator has responsibility for winding up affairs of insurance companies that go broke. For some years the office has been caught in the middle of a struggle between an Austin district court and the State Insurance Board as to which has authority to appoint

receivership attorneys for the bankrupt companies.

Prison Farm Cotton Cut
Texas taxpayers face an extra burden unless the Prison System can get a more favorable cotton acreage allotment, says Gen. Mgr. O. B. Ellis.

Ellis protested to the U. S. Dept. of Agriculture that acreage for prison farms has been cut disproportionately, costing the system \$2,500,000 in income. Texas Prison System is heavily dependent on income from inmate-run industry and agriculture to foot the upkeep bills.

Short Snorts
Dr. Robert Strain, associate professor of insurance at the University of Texas, has been named to the State Board of Insurance to replace Joe P. Gibbs of Seguin, who has resigned.

Merit System Council of the State Department of Health has announced examinations for posts in accounting, administration, nursing, medicine, psychology, social work, engineering and sanitation. Applications can be obtained from Merit System Council, 630 Littlefield Building, Austin 18.

Recent guests in the home of Mrs. W. I. Wester were Iva and Jack Wester of Carlsbad, N. M., and Mr. and Mrs. Randall Wester of Amarillo.

Kenneth Fisher, son of Mr. and

Mrs. Lem Fisher, is in Canyon after receiving his discharge from the U. S. Navy. He had served seven years.

Courtesy Honors Mrs. Herbert Hill

Mrs. Herbert Hill of Amarillo, formerly Edwina Caskey of Canyon, was honored by a shower in the home of Mrs. R. P. Jarrett last Friday evening.

Laid with a white cut work cloth, the table was centered with a floral arrangement of blue carnations and white shasta chrysanthemums accented by miniature white umbrellas tied with pale blue streamers. A miniature bridesmaid doll was also used on the table.

Donna Caskey, sister of the bride, poured. Cookies, mints and nuts and punch were served. Mrs. Norma Titus registered the guests.

Gifts were displayed in a room featuring a bouquet of yellow pom-pom mums, white daisies and blue iris.

Co-hostesses were Mrs. Walter Partridge, Mrs. J. D. Loudder, Mrs. Stanley Cobb, Mrs. Charles Pecknough, Camilla Davis, Mrs. Morris Abbott and Mrs. Vernon Green.

LEGAL NOTICE

THE STATE OF TEXAS
COUNTY OF RANDALL
TO ALL PERSONS INTERESTED IN HATTON'S RE-PLAT OF BLOCK 10 OF SOUTH SIDE ESTATES, A SUBDIVISION IN RANDALL COUNTY, TEXAS:

WHEREAS, on March 10, 1958, J. A. Hatton and wife, Willie Mae Hatton, filed in the office of the County Clerk of Randall County, Texas, their certain petition to the Commissioners Court of said county, as follows:

"TO THE COMMISSIONERS COURT OF RANDALL COUNTY, TEXAS:

Come now J. A. Hatton and Willie Mae Hatton, husband and wife, who reside in Hutchinson County, Texas, hereinafter called petitioners, and file this, their application for permission of this Court to cancel a subdivision of land in Randall County, Texas, and in support hereof respectfully represent to the Court and aver:

1. That by deed bearing date of June 19, 1944, recorded in Volume 95 Pages 163 and 164 of the Deed Records of Randall County, Texas, Southside Investment Company, a corporation, conveyed to your petitioners, jointly, the following described lands, lying and being situated in Randall County, Texas, to-wit:

Tracts Numbers One (1) Through Sixteen (16), inclusive, in Block Number Ten (10) of the Southside Estates, a subdivision of the Southeast part of Sections 5 and 6 in Block 9, B. S. & F., in Randall County, Texas.

2. That thereafter your petitioners caused said land so conveyed to them, as aforesaid, to be subdivided into lots and blocks and caused a plat of said subdivision thereof to be made and after the filing thereof was authorized by this Court, said plat was filed for record on June 12, 1956 and was recorded in Volume 199 Pages 179 and 180 of the Deed Records of Randall County, Texas, designated as Hatton's Re-plat of said Block 10 of South Side Estates.

3. That by virtue of such subdivision of said lands and the filing and recording of said plat, the aforesaid lands were subdivided into the following lots and blocks, to-wit:

Lots 1, 2 and 3 in Block 1;
Lots 1 to 10, inclusive, in Block 2;

Lots 1 to 17, inclusive, in Block 3;

Lots 1 to 22, inclusive, in Block 4;

All in Hatton's Re-Plat of Block 10 of South Side Estates, a subdivision of the Southeast part of Sections 5 and 6, Block 9, B. S. & F. Survey in Randall County, Texas.

4. That none of said lots last above described have been sold or conveyed since said subdivision was made and your petitioners are now the sole owners of each and all of said lots and blocks and the streets and alleys shown on said re-plat.

5. That it will be advantageous to your petitioners to cancel the aforesaid re-plat and subdivision of said Block 10 of South Side Estates, so made, as aforesaid, and throw said land back into acreage tracts as it existed before such re-subdivision thereof; that such cancellation will not interfere with the established rights of any person, or persons.

WHEREFORE, your petitioners respectfully pray that an order be made and entered setting a day of a regular term of this Court for hearing this petition, that the County Clerk of Randall County be ordered and directed to issue and cause to be published in a newspaper of general circulation, published in the English Language in said county, for three weeks, that is once each week for three consecutive weeks prior to the date of said hearing, notice of the filing of this petition, commanding any and all persons interested in the aforesaid lands to appear at the time and place specified therein to protest the granting of this petition if they desire to do so; and that upon a hearing hereof an order be made and entered herein canceling said subdivision and relinquishing the rights of the public in and to the streets and alleys in said subdivision, authorizing your petitioners to cancel said subdivision by a written instrument to be executed and filed by them."

Said petition will be heard and acted on by said Court at 10:00 o'clock A. M. on April 14, 1958 at the court house of Randall County in Canyon, Texas, at which time and place all persons interested in said lands described in said petition shall appear and protest the granting of said petition if they desire to do so.

GIVEN under my hand and seal of office at Canyon, Texas, this 10th day of March A. D. 1958.
T. H. Lair, By V. Byars, Deputy
County Clerk of Randall County.
(SEAL) Texas 4913

County - -

Continued from Page 1

duct appraisals on that portion of the right of way. The county has the option of conducting its own appraisals to be submitted to the state, or of asking the state to conduct the appraisals.

In either event, the state retains the right to conduct its own appraisal, and will participate in the purchase of right of way up to half the cost of the approved appraisal value.

Asked when the state would require the right of way from Bell to the city, Smith said, "The faster you get it, the faster we will get it under contract."

Smith said that appraisals for right of way needed to widen Highway 60 west from Canyon to the county line have been submitted to Austin for approval, but have not been returned. He said he would send the appraisals to the

county as soon as they are received in his office, and expects they should be returned in a week or so.

Smith estimated that the next construction contract on the expressway, from the top of Canyon Hill to Bell Avenue, would be let in the June letting provided the right of way was cleared.

No Fires - -

(Continued from Page 1)

the county truck until the proposition had been given a trial, and that if it appeared successful, the county would transfer title to the Canyon Fire Department "on some mutually agreeable basis."

It also stated: "The Commissioners' Court requests the City Commission to extend the present contract for Fire Fighting Equipment in Randall County, outside the City Limits of Canyon, on the same basis until the details of the foregoing contract, as set out above, can be agreed upon."

Mayor Foster said the city commission had been in session Monday night, before the 30-day contract ended, and that the commission had scheduled another meeting for next Monday night. "We'll take it up then, and she stands as it is until then," he said.

About a year ago, the city and county negotiated a contract which called for the payment by the county of a charge of \$1 per man who answered a call outside the city limits. The contract expired Dec. 31.

The fire department operated without a contract until Feb. 10, when the commission ordered that service be stopped. On that day, the city and county negotiated a 30-day contract that called for payment of \$25 per call outside the city limits plus an additional fee of \$5 per mile over five miles. The county has the same contract with the City of Amarillo.

The city commission had asked that the county pay a flat fee per year for fire protection and that the city purchase the county's equipment. The commission had suggested a fee of \$4000 per year, but in a later meeting with representatives of the commissioners court indicated that a smaller figure might be more reasonable.

The volunteer fire department is financed mainly by the city. The equipment, exclusive of the county-owned equipment and fire department-owned radio pickup truck, is purchased by the city, and is maintained at city expense.

The city pays, in addition, a fee of \$1 per man for each drill and \$1 per man for each fire inside the city limits. This payment goes into the department treasury, and is used mainly for purchase of equipment. The radio pickup truck and its equipment was bought in this manner.

Officers Feted At Amarillo Meet

Randall County committeemen of the Water Conservation District were entertained March 7 at Rice's in Amarillo along with committeemen from Deaf Smith, Potter and Armstrong Counties by the force of the Lubbock office.

Slides demonstrating the recharging of irrigation wells from lakes and drainage ditches were shown.

Attending from Randall County were Mr. and Mrs. John Butler, Mr. and Mrs. James Dietz, Mr. and Mrs. Leo Artho, Mr. and Mrs. L. E. Mason and Mr. and Mrs. Alfred Hamblen.

The Chamber of Commerce is proud to have had the opportunity to publicize facts concerning the Water Bond Election in 1957. The Chamber of Commerce is sure this long range program will take care of our water needs for several years. The Chamber of Commerce commends the City Commission for their foresighted hard work contributed to this project.

PARK OFF STREET

Each fireman, after serving a year's probation, is not charged the minimum monthly water charge by the city. Each fireman participates in a state-operated retirement fund, and pays \$5 each year to that fund.

The fire chief, elected by department membership, and the fire marshal, appointed by the city commission, are each paid \$10 per month by the city.

This year the city's budget for

the fire department was \$8506, which included money to be saved for use in later years for purchase of a new fire truck. The department's operation has been \$3049.28 through Feb. 28, or 11 months out

of the city's fiscal year. During the last calendar year, 14 fire calls were made outside the city limits by the fire department, making a percentage of 37.8 of the total number of fires.

Ladies Auxiliary Elects Officers

Four new members were initiated and officers elected at the Ladies Auxiliary of the Veterans of Foreign Wars, Post 5681, met March 3 in the home of Mrs. J. D. Louder.

Initiated into the auxiliary were Mrs. Betty Hunter, Mrs. Faye Bosley, Mrs. LaVon Gardner and Mrs. Sue Brazil.

Allie Mae Wilson was elected president. Other officers are Mary Stephens, senior vice president; Lois Louder, junior vice president; Dorothy Hunnicutt, conductress; LaVon Gardner, musician; Betty Hunter, guard.

Faye Bosley, Mary McBroom, Faye Risner and Sue Brazil, color bearers; Emma Hardaway, secretary; Nettie McBroom, treasurer; Laura Lou Miller, patriotic in-

structor; Lois Louder, historian; Martha Penick and Mae Wilson, chaplains.

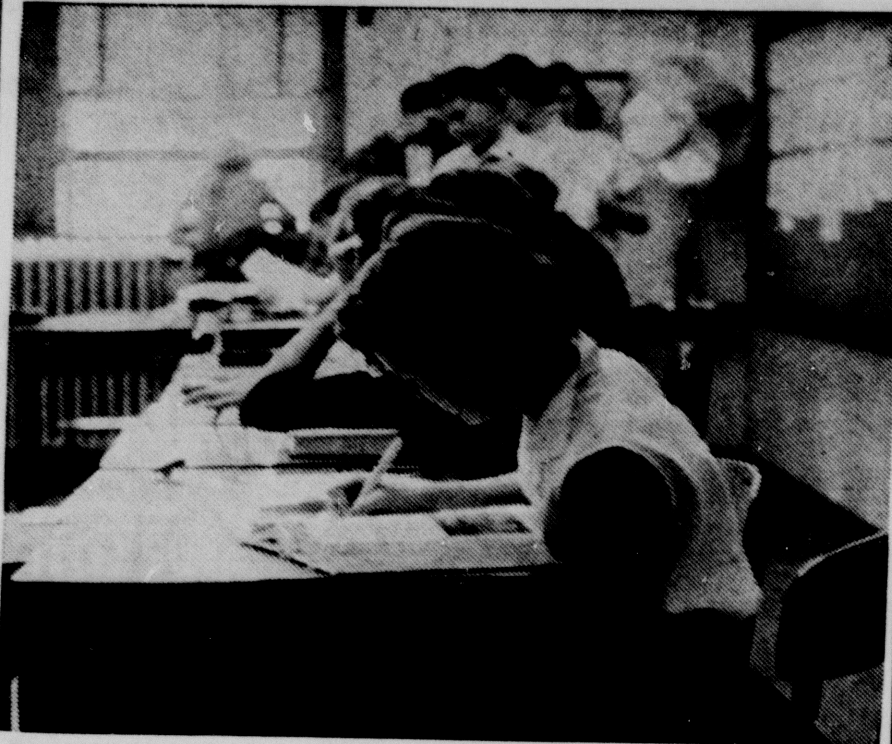

During the social hour, Mrs. Lawrence Hunnicutt was surprised with a pink and blue shower, and the hostess, Mrs. Louder, was given birthday gifts.

Prichard Hosts Priscilla Club

The Priscilla Club met in the home of Mrs. Hud Prichard March 5.

A dessert course and coffee were served to Mrs. C. M. Dowlen, Mrs. Dewey Foster, Mrs. S. B. Louder, Mrs. R. A. Hodges, Mrs. Irving SoRelle, Mrs. Ray McReynolds, Mrs. T. S. Stevenson Sr., Mrs. E. D. Walker, Mrs. H. M. Stokes, Mrs. Gladys Marshall, Mrs. C. R. Flesher, Mrs. L. L. Jones, Mrs. J. M. Daugherty and Mrs. J. A. Woodfin.

Concentrate and Learn

Classroom work is not all recitation and tests. On many days, teachers assign work to be done in class so that pupils will have the advantage of help from the teacher when problems are reached.

Buffalo Masquers Observe Theater Month With 4-Night Run of Thriller

Observing International Theatre Month, Buffalo Masquers, campus dramatics club at West Texas State College, will present a thriller, "The Desperate Hours" by Joseph Hayes. The show will open a four-night run in the Branding Iron Theatre March 19.

To be presented by intimate theatre staging, the three-act drama will be directed by William A. and Margaret Echols Moore. Curtain time will be 8:15 p. m., and admission will be 75 cents for adults and 50 cents for high school students and children.

The stage play and a movie were produced about the same time about three years ago. Karl Malden starred in the Broadway production, and Humphrey Bogart headed the movie cast.

Story deals with three escaped convicts who hold a family hostage while waiting for a telephone call that will bring them the loot from a bank robbery.

Edward Thomas of Amarillo will appear as Glenn, leader of the convict trio. Jerry Williams of Canyon and Wayne Winn of Levelland will alternate as Hank, each playing the role two nights, and Don Malone of Goodlett is cast as Robish, the third convict.

The hostage family will be played by Marian Forbau of Quanah as the mother, Eleanor Hilliard. Her husband, Bud Forbau, will appear as the father, Dan Hilliard. Ralphie Hilliard will be played by Alex de Schweinitz of Canyon, and Cindy Hilliard will be portrayed by Marty Hinson of Amarillo.

Deputy Sheriff Bard will be played by Robert L. Antrim, technical director of the BIT, and the two men in his office, Winston and Carson, will be played by Cavin Webb of Clarendon and Truman Laughery of Canyon.

Others in the cast are James Hinkley of Pampa as Chuck, J. Scott Glenn of Borger as Patterson, Billy Hodgson of Friona as Fredericks, Roberta Hickman of Canyon as Miss Swift, and Pat Ann McDaniel of Dallas, will be Daisy's voice.

Plays presented in the past to observe International Theatre Month by the Masquers group have included "Rope," "Dulcy," "Our Town," and "The Happiest Years."

Wayside News

Rev. Joe Leatherwood filled the pulpit Sunday. Mrs. Leatherwood accompanied her husband.

Enjoying dinner last Sunday in the Willie Modisette home were his sister and her family, Mr. and Mrs. Artie Brawner and Carolyn and Larry of Amarillo, and Mr. and Mrs. Donnie Martin and Derrell of Wayside.

Mr. and Mrs. Robert Fisher and Kenneth Fisher, all of Canyon, attended church at Wayside last Sunday.

Grady and Billy Jo Kennedy of Canyon helped Charles Kennedy celebrate his birthday last Sunday with a turkey dinner. Jimmie Schrib was also a guest.

Mr. and Mrs. W. R. Franklin were business callers in Tulia on Wednesday. They were also guests in the Dean Rogers home.

Mr. and Mrs. Roy Stockett of Tulia and Mrs. Macie Helms of Claude visited last Sunday in the John McGehee home.

Mrs. Henry Hamblen spent most of last week in Hereford helping care for her sister who had surgery some time ago and is who is not doing so well.

Mr. and Mrs. Willie Modisette were Amarillo shoppers Tuesday.

We were sorry to hear of the passing of another well known person in this community. Mrs. Myrtle Payne died March 6 in the Tulia hospital. The funeral was last Saturday in Tulia, and she was buried in the Wayside Cemetery beside her husband, the late Guy Payne.

Mrs. Fannie Franklin recently visited her aunt, Mrs. Mary Jenkins in Canyon.

TERRIBLE

"Tell me, is Mabel still out of a job?"
"Yes, the poor girl's down to her last lipstick."

Did you know the Chamber of Commerce worked on a City Park project for twenty years? In 1954 the Chamber of Commerce was able to bring the issue to a vote, to let the people of Canyon decide whether or not Canyon should have a City Park. The Chamber of Commerce was able to furnish the people the information needed to pass the bond election for a park. The people of Canyon can be proud of the progress the park has made in such a short time.

Chemistry Major Wins Fellowship

A West Texas State College chemistry student has been awarded a teaching fellowship for the 1958-59 college year, and three other science students have been accepted by medical and dental schools. All are from Amarillo.

Mary Ann Reid, senior chemistry major, has been awarded a teaching assistantship for the fall semester at Washington University of St. Louis.

A senior biology student, Mark A. Kimmins has been accepted at Southwestern Medical School. Two pre-dental students, Hugh Bob Tilson and Carroll Little, have been accepted at Baylor University Dental School and the University of Texas Dental School, respectively.

Daughter of Mr. and Mrs. Tom F. Reid, 4014 Parker, Miss Reid is a member of Alpha Chi, national honor society. She was named to represent WT in "Who's Who Among Students in American Universities and Colleges," and as a freshman, was named the outstanding freshman chemistry student.

Kimmins, son of Mr. and Mrs. E. A. Kimmins, 2033 Palo Duro, is a member of Alpha Chi and Kappa Kappa Psi, national fraternity for men in band.

Son of Mr. and Mrs. D. J. Tilson, 2904 Julian, Tilson is a junior chemistry major. Co-captain of the Buffalo basketball team, he was named to "Who's Who Among Students in American Universities and Colleges."

Little, a graduate student, lives at 3109-B Curtis Drive. Originally from Sweetwater, Little holds the B.S. degree from Texas A&M College.

Jowell HD Meets With Mrs. Myers

The Jowell Home Demonstration Club met in the home of Mrs. Albert Myers March 5.

Mrs. J. W. Spencer presented the program on "General Hints on

Giving a Good Party." Sandwiches, cake and strawberries and coffee were served. Next meeting will be with Mrs. Spencer March 19.

Mr. and Mrs. Howard Mahle and daughter of Lubbock spent Sunday with his mother, Mrs. S. M. Mahle, on her 85th birthday.

WARREN'S

We'll Pay You 6% Interest In Advance

BUY NOW... and BENEFIT

Come in today. Let us show you how you can buy now and benefit both in cash and in the many cost-cutting, grain-saving features of a new McCormick Harvester-Thresher. Don't pass up this opportunity to make the deal of a lifetime. Call us now and we'll come to your farm, appraise your trade-in and show you how much you save by dealing now.

...on your TRADE-IN for a new HARVESTER THRESHER

Yes, you can get cash from us without putting up any cash of your own. We'll pay you 6% interest per annum on the value of your trade-in from the day we take it in on any new McCormick Harvester-Thresher until August 1, 1958. And, we'll pay the entire amount of interest due to you—at once. It's the deal of a lifetime. And, the earlier you deal with us the more cash interest you get.

We'll also pay you 6% per annum interest—

...on your DOWN PAYMENT

If you wish to use your trade-in as a down payment, or make a cash down payment only, we will pay you 6% per annum to August 1, 1958, on either or both. And, we'll pay the interest in cash... at once.

Why are we able to make this liberal offer? It's because your old combine or other trade-in is worth more to us NOW while we still have time to recondition it and resell it prior to harvest.

Has Pastorate

WILBERT H. LONG

Canyon Man Takes Denton Church

The Rev. Wilbert H. Long, son of Mr. and Mrs. H. C. Long of Canyon, became pastor of the New Hope Baptist Church in Denton in January.

For the past three and one-half years, the Rev. Long was associate pastor of the Highland Baptist Church. He expects to receive his bachelor of divinity from Southwestern Baptist Seminary in May. He is also working on a Master of Religion Education degree at the same school.

Stork Specials

Mr. and Mrs. Lonnie Davis of Amarillo became parents March 9 when Mrs. Davis gave birth to a girl. Mrs. Davis is the former Sue Keeling of Canyon.

Do you know how many tourists visited Palo Duro State Park, Buffalo Lake and the Panhandle-Plains Museum in 1957. Combine records show that more than 230,000 people visited these attractions in 1957. This figure does not include the visitors to the picnic areas at Buffalo Lake.

223 Boys Work In Scouting Here

A total of 223 Cubs, Scouts and Explorers had membership in the Randall District at the end of February, it was reported at the regular meeting of the Randall District Committee Monday.

Wesley Cox reported that 80 persons attended the Blue and Gold Banquet of Cub Pack 34 and Pack 97 was to have a banquet Monday night. He reported additional reservations are available on the canoe trip this summer.

Additional Cub training will be given here March 18, and a T-Man's training conference will be held at Amarillo Air Force Base on March 15 and 16. Canyon's Scout Training Team will give a model demonstration at the conference.

W. M. Teague reported that 50 Cub awards were to be given in March and a Troop 66 and 31 Court of Honor will be held March 17.

Juniors Give Recital Monday

Two West Texas State College juniors will be presented in recital Monday at 4:30 p. m. in the Administration Building auditorium by the department of music. The public is invited.

Mrs. Marian Forbau of Quanah, mezzo-soprano, and Dorothea Fish of Paducah, pianist, will appear in partial fulfillment of requirements for their Bachelor of Music Education degrees.

Accompanied by Janice Ruth of Dalhart, Mrs. Forbau will open the program singing "Alleluia" by Mozart and "He Was Despised" by Handel. She will also sing selections by Durante, Bizet, Bach, Brahms, Faure and Debussy.

Miss Fish will play Bach's three-movement "Italian Concerto," Schubert's "Impromptu, Op. 90, No. 3," Kernek's "Streamliner," and Brahms' "Capriccio, Op. 76, No. 2."

Mrs. Forbau will close the program, singing "When I Have Sung by Charles," "Silent Noon" by Noon" by Vaughan Williams, and "File for Future Reference" by Sargent.

Homemakers Have FHA Open House

More than 200 Panhandle area high school homemaking students were at West Texas State College Monday afternoon for an open house by the home economics department.

Registration opened the afternoon's program, and Mrs. James P. Cornette, wife of WT's president, welcomed visitors to open a meeting in the Administration Building auditorium.

A style show, a twirling solo by Jeanette Faulkenberry of Seagraves and a demonstration of flower arrangement by Earleen Plank of Hereford were featured. Visitors toured the WT campus and were entertained at a tea in the home economics dining room.

Science Study

A serious study of science as an individual course is undertaken in junior high school. Experiments are conducted and pupils record what they observed, with help from the teacher.

Fairview Breezes

There wasn't any Sunday School or church services Sunday because of muddy roads.

We have received 1.60 of moisture since Friday morning.

Mrs. Richard Evans was ill with a severe cold Wednesday.

Mrs. R. D. Freeman of Fort Worth, a daughter of Mr. and Mrs. L. H. Barnard, underwent surgery in a Houston hospital for a heart ailment last Monday. She was doing fine at last report.

C. P. Rogers visited in the J. W. Wesley home Wednesday.

Mr. and Mrs. G. E. Wesley and LaVenia Amerson were in Amarillo Tuesday on business.

Mrs. Albert Legate of Whitherald has been quite ill in a Levelland hospital with pneumonia and high blood pressure, but she is improving.

Mrs. Charles Sutton has been quite ill because of high blood pressure.

Mr. and Mrs. J. W. Wesley were visiting in the Richard Evans home Wednesday.

Mrs. Woodrow Wesley and Mrs. Ella Hext returned from Hot Springs, N. M., Friday. They reported they had a nice time. They visited Mr. and Mrs. Bobby Boyd. They saw a lot of sand and snow enroute.

J. W. Wesley has lost two cousins during the past week.

Las Amigas Make Pictures of Foil

Meeting with Mrs. Toni Dewey Feb. 27, the Las Amigas Home Demonstration Club had a short business session before working on pictures of foil and glass.

Members painted pictures on glass and crumpled foil to go behind the picture.

The next meeting will be with Mrs. Joe Green March 13, when Mrs. Mona K. Hildreth, county home demonstration agent, will present the program.

Did you know the Chamber of Commerce worked almost a year making all the facts regarding the Canyon-Amarillo Expressway available to the people of Randall County? You can now see the first completed sections of the project North of Canyon and in South Amarillo. The Chamber of Commerce is proud they had a part in getting this project over.

Please Vote April 1, City Election

Courtesy of: M. E. MOSES CO.

Spending last weekend in the home of Mrs. Iris Gazzaway were Mr. and Mrs. David Gazzaway and son, Randy, of Hobbs, N. M., Mr. and Mrs. Edd Lepper of Amarillo and Mr. and Mrs. Earl Crump.

Mr. and Mrs. O. L. Shugart of Amarillo were visitors Sunday in the E. W. Shugart home.

Mrs. Lorena Roberts of Sitka, Alaska, visited in the home of W. J. Stewart recently.

She: "I wish you had telephoned before you came. I'm sorry for my appearance." Bore: "Your appearance?" She: "Yes, if I had known you were coming, I wouldn't have made one."

PONTIAC SWEEPS NASCAR SAFETY HIGHWAY PASSING TESTS!

DAYTONA BEACH, FLA.

Pontiac again proves it is AMERICA'S NUMBER ① ROAD CAR in the year's toughest test of SAFETY, HANDLING AND PERFORMANCE!

HOUSEWIFE VICKI WOOD AND HER '58 PONTIAC taught men drivers a lesson in winning the 50 m.p.h. safe passing event. The elated Mrs. Wood reported, "... our new Pontiac handled and performed like a dream ... so smooth and easy I couldn't believe it".

Winner of the 30 m.p.h. passing event and high over-all winner of the safety tests with his standard 4-door Pontiac Catalina, magazine auto expert Jim McMichael cracked, "I could have told them before the tests started—this '58 Pontiac is in a class by itself".

Chances are you'll never be up against the precise and exacting demands that NASCAR puts on test cars and drivers. But you can put Pontiac through your own everyday driving paces and learn why test drivers call Pontiac America's Number 1 Road Car.

You'll discover that the industry's hottest team of engineers has created a car so advanced in basic design that it brings with it a totally new kind of driving. Give the nod to its Tempest 395 V-8 with power trimmed precisely to your wish. Corner it, park it, maneuver it to

the point of abuse and you marvel at your absolute command in every type of driving situation. Come in—drive and safety-test America's Number 1 Road Car. You'll discover it's by far the biggest money's worth on the market!
